Lucknow, Uttar Pradesh - 226023, India

PROFESSIONAL SUMMARY

React Native Developer with 1+ year of expertise shipping 5+ production mobile applications on App Store and Google Play. Specialized in React Native app development, AI integration, Firebase backend architecture, and mobile payment systems. Proven track record collaborating with US startup teams serving enterprise clients including Deloitte, KBMG, and Accenture.

PROFESSIONAL EXPERIENCE

React Native Developer | Appeneure Technologies Pvt. Ltd., Noida, India

June 2024 - Present

- Architected and deployed 5+ production-grade React Native mobile applications for iOS and Android platforms, achieving 10K+ active users and maintaining 4+ star app store ratings.
- Engineered Firebase backend infrastructure including Realtime Database, authentication systems, and Firebase Cloud Messaging, reducing API latency by 25% and supporting 10,000+ concurrent users.
- Executed React Native in-app purchase system with Razorpay payment integration, achieving 99.9% transaction success rate and processing \$50K+ monthly revenue.
- Integrated advanced APIs including Google Places API, Maps API, Geolocation services, OpenAI, and Grok API for AI-powered features and third-party integrations (Slack, WhatsApp, Jira, Motion).
- Developed server-side rendered web applications using Remix and Next.js frameworks, achieving 90+ Lighthouse performance scores and SEO optimization.
- Collaborated cross-functionally with product managers, UI/UX designers, and backend engineers to deliver user-centric mobile solutions and ship features within sprint cycles.

Android Developer Intern | Sypsys Technologies Pvt. Ltd.

July 2023 - August 2023 | Hybrid

- Configured complete React Native mobile development environment including Android Studio, Xcode, and Node.js toolchain setup and optimization.
- Enforced responsive React Native UI patterns and custom styling optimized for 50+ device configurations, improving UI consistency across screen sizes by 35%.
- Integrated multi-level navigation system using React Navigation (Stack, Tab, Drawer navigators) for enhanced app flow and mobile user experience.
- Debugged React Native applications using React Native Debugger and validated functionality on real Android and iOS devices, reducing app crashes by 40%.

FEATURED PROJECTS

Tripper - AI-Powered Trip Planner | React Native | Firebase | AI Integration | Client Project

[iOS App Store](#) | [Android Play Store](#)

- Developed AI-powered React Native travel application for iOS and Android that intelligently recommends restaurants, music venues, and entertainment based on real-time geolocation.
- Applied Google Places API, Maps API, and Geolocation services for location-based recommendations, increasing user engagement by 45%.
- Executed React Native in-app purchase system with multi-tier subscription models, generating \$15K+ monthly recurring revenue.
- Production app achieving 4+ star rating across App Store and Google Play with 50K+ downloads and 10K+ active monthly users.

OneKey Notes - AI Note-Taking Application | React Native | OpenAI | Webhook Automation | Client Project

[iOS App Store](#) | [Android Play Store](#)

- Built React Native note-taking application leveraging OpenAI API for automatic transcription, text enhancement, and AI-powered summarization of user notes.

- Engineered webhook configuration system enabling seamless third-party integrations with enterprise tools (Slack, WhatsApp, Jira, Motion) for automated workflow automation.
- Applied Grok API for advanced AI text enhancement and enforced dictionary lookup feature, reducing user typing time by 30%.
- Production app available on App Store and Google Play with growing user base actively utilizing AI-powered note enhancement features.

Soljoy - AI Tarot Reading Platform | Next.js | AI Models | Web Application | Client Project

[Visit Live Application](#)

- Developed Next.js web application featuring AI-powered tarot reading platform enabling users to receive personalized, contextual tarot card interpretations.
- Integrated sophisticated AI models for intelligent card interpretation and personalization, achieving 92% user satisfaction rating.
- Production Next.js web platform with 5K+ monthly active users and positive user engagement metrics for AI-generated readings.

Stealth Talent Solution - Enterprise AI Hiring Platform | Remix | AI Candidate Matching | SaaS | Client Project

Enterprise Clients: Deloitte | KBMG | Accenture | 1000+ Active Hiring Managers

- Architected complete frontend UI/UX using Remix framework for enterprise-grade AI hiring platform serving Fortune 500 companies and leading consultancies.
- Executed AI-driven candidate filtering algorithm for intelligent matching of job descriptions with candidate profiles, improving hiring accuracy by 35%.
- Built comprehensive candidate management system with profile review, shortlisting, and interview scheduling, reducing time-to-hire by 40%.
- Production SaaS platform serving 1000+ active hiring managers across enterprise clients, processing 500K+ candidate applications annually.

EDUCATION

B.Tech in Information Technology *August 2020 - July 2024*

Axis Institute of Technology and Management (AKTU), Kanpur, Uttar Pradesh, India

TECHNICAL SKILLS

- **Mobile Development:** React Native, iOS development, Android development, Xcode, Android Studio, React Navigation, In-App Purchase SDK
- **Languages & Frameworks:** JavaScript, TypeScript, Java, HTML5, CSS3, Remix, Next.js, React.js
- **Backend & Database:** Firebase Realtime Database, Firebase Authentication, Firebase Cloud Messaging, REST APIs, API Integration
- **AI & Machine Learning APIs:** OpenAI API, Grok API, Google Places API, Maps API, Geolocation services
- **Payment & Integration:** Razorpay, subscription management, webhook configuration, Slack integration, WhatsApp API, Jira integration, Motion
- **Development Tools & Practices:** Git version control, Redux state management, performance optimization, SEO optimization
